The Civil War in Mexico. The Attack on the City of Mexico-Battle of the 14th of

October. Col. Mejia, of the Liberal party, has written the following account of the attack made by the Liberals on

the City of Mexico on the 14th October: BATTLE ON OCTOBER 14 .- On the evening of the 14th, the announcement was brought in that a large body of Liberals had taken Tacabuya, a small town three miles from the capital, and that they were preparing to attack. I immediately left in the railroad for Tacubaya to urge them to attack the city at once; for arriving about 7 o'clock, I found Gen. Blanco in command of the united forces of New Leon, Michocan and Mexico, in all about 2500, and eleven small pieces of artillery, the largest a four-pounder, and one twelvepound howitzer. The city was at that time garrisoned by 1700 men of the line, and 42 pieces of artillery; the smallest of these twelve-pounders; there were beside these 1600 police, well armed and efficient men.

About 7 o'clock next morning, I was sent by Gen. Blanco to demand the surrender of Chapultepec, which was necessary to hold to protect our rear, hoping that Zuloaga would not be inhuman enough to expose the boys of the military academy stationed there. After sounding a parley in vain, I advanced with the riflemen of Vidaurri and reconnoitred. Finding there was but a small force, and that they seemed occupied carrying had been withdrawn at daylight. After leaving a gar- a victim to intemperance and destitution. The Herald rison of 200 men, one division marched on by the causeway of San Cosme and American burying-ground, and a detachment of 200 men under Gen. Valle to attack the opposite side of the city, and call off the attention, both attacks to be made simultaneously. By some unaccountable mistake this did not take place.

operated on us as soon as we returned out of an angle of street. the aqueduct. Here the battle became general. Our troops deployed in a line across the aqueduct and a road which led at right angles toward the railroad. The enemy were posted in force at the Garita, adjoining houses and Military Hospital. Several times our men were ordered to charge the battery, but were mowed down, as the battery completely enfiladed the causeway. Nothing was heard of the other detachment, and whilst a flank movement was attempted, our troops, in a line, kept up a brisk fire against their position, which did the enemy

a great deal of injury.

About this time the enemy brought up 500 cavalry. under the notorious Spaniard, Gen. Parcz Gomez, and planted two mountain howitzers within eighty yards of our position, which began shelling. Immediately a charge was ordered on these pieces, and at the same time their cavalry charged gallantly, but were repulsed with Coat. That Dec. 23d, 1858 night we retreated five miles towards the village of The New and Startling Poem of the Dress for the Remedois. All that night we heard the cannon booming in the city. The next morning a report reached us that our detachment were holding a position, and it was determined to march to their aid. When about starting, an officer joined us, informing us that the remnant

of the detachment were coming up. In an hour they joined us. It appears that the detachments on leaving us took by mistake a cross-road, which led them some distance from their route, and delayed their attack. They entered the city by the canal about two o'clock. When debouching from the street that leads from the bull-pen to the plaza of San Pablo, they were charged by a column of cavalry, and, after a brisk fight, it was repulsed with great loss. Our forces immediately took the Church of San Pablo, within a few hundred yards of the Palace. The detachments were greatly reduced by the fight in the plaza, but still sent a few men to take another church. These were cut up and taken prisoners. The populace in large numbers demanded arms, but there were none to give them but the palace, and one from the hospital, shelled them continually. They repulsed every attack, and held their ing the original color of the hair, ever safe, put before the own until eight o'clock, when, boring a hole in the wall | world. side was over 180 killed and wounded.

He spoke of the acquisition of Cuba as a necessity of our progress, but a question of time. The same he said, was true of Central America, and Mexico. He spoke in strong terms against the Clayton-Bulwer treaty, and related a conversation that once took place between Mr. Bulwer and himself, at Washington, on the

subject of the Central American treaty: " Mr. Bulwer said he thought the treaty a good one because it was reciprocal; the two contracting countries had equal privileges. 'I agreed,' said Mr. Douglas, 'to consider the treaty a good one, if I could have a little amendment added to it. 'What is that?' asked Mr. Bulwer. Correspondence of the Petersburg Express. Terrible Affray-Man Shot.

WELDON, N. C., Dec. 18. Ed. Express:-Yesterday evening, just about the time the train reached Dudley Depot, from Wilmington, two men named Fadlock and Richard Hatch, who had been previously engaged in a difficulty, met at the Dudley Station, when the quarrel was renewed. Hatch collared Fadlock, and the latter immediately drew a revolver and shot his antagonist in the breast.

Hatch was not dead when the cars left, but no hope was entertained that he would live many minutes. Fadlock fled as soon as he had committed the act, and had not been taken at last accounts.

Rosin-The market has been almost entirely neglected during the past week, owing to the fact of a shade advance in coastwise freights and the difficulty experienced in shipping ;-scarcely any vessels now in port but what have been taken up, and purchasers not being able to obtain ship room are not disposed to operate. Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved this is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Hol-land Professor, Bærhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly won-

derful medicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use ardent spirits, or other forms of dissipation. Generally, instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor NOTICE .- Whoever expects to find this a beverage will

be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties. CAUTION: The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not pursuaded to buy anything else until you have given Bœrhave's Holland Bitters a fair trial. One bot-

the afflicted, to report it. Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Restorative, we did so with little hope of success, but, to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can, therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are, yours re-pectfully, GEORGE W. HIGGINBOTHA M.
